In a small village, there was a garden unlike any other. The villagers called it the Magic Garden because it was filled with plants that had special powers. There were flowers that could sing, trees that could talk, and bushes that glowed in the dark. The garden was taken care of by an old gardener named Mr Green, who loved sharing its wonders with children. One day, a girl named Sarah visited the Magic Garden. She had heard many stories about it and was eager to see it for herself. As she wandered through the garden, she saw a flower with rainbow-colored petals singing a beautiful melody. She also found a tree that told her stories about the past and a bush that lit up like a lantern as the sun set. Sarah noticed that some of the plants looked sad and wilted. Mr Green explained that the garden needed more help to stay magical. Sarah decided to help Mr Green by watering the plants and singing to them. Over time, the plants became healthy and happy again, and the garden looked more beautiful than ever. The villagers were amazed at how the garden had improved, and they praised Sarah for her hard work and dedication. The Magic Garden became a place where everyone could come to relax and enjoy the wonders of nature. Sarah learned that with care and kindness, even the most magical places can thrive.

- a. Why do you think Sarah decided to help Mr Green in the Magic Garden?
- b. What qualities did Sarah demonstrate by helping in the Magic Garden?
- c. How did Sarah's actions benefit the Magic Garden and the villagers?
- d. What lesson can readers learn from Sarah's experience in the Magic Garden?
- e. Why do you think the villagers praised Sarah for her hard work and dedication?
